Student Template for Lab Guidelines

Student Name(s):

Title of the Lab Procedure:

Objectives
After following the procedures below, students should be able to:

- 
- 

Materials
List only the materials (and quantities) the students will need to follow your procedure:

- 
- 
- 
- 
- 
- 
- 
- 

Safety
Add any necessary safety information that should be observed for the procedure:

- Always wear safety goggles when handling chemicals in the lab.
- Wash your hands thoroughly before leaving the lab.
- Follow your teacher’s instructions for clean-up of your materials and dispose of any chemicals.

- 

Procedure
Be specific! Your procedure will be followed exactly as written and should produce similar results each time it is conducted.

1. 
2. 
3.
4.
5.
6.
7.

**Data**
Create a data table that is appropriate for your procedure. Think about what information should be documented during the experiment and how many trials are expected to be conducted.
