Advice for Successful ChemClub ______. (grant, activity, membership, etc.)

1. A lofty idea, concept, goal.
   a. Simple as “more chemistry activities for students” or “better pep assemblies”

2. Concrete steps to reach it
   a. What will you do? How will you do it?
   b. What equipment or supplies do you already have?
   c. How will this all impact student learning / match the ChemClub grant’s goals with yours.
   d. How will you address safety? Document it!

3. Core group of students to help
   a. Students in your classes
   b. Students in other classes (connect with your colleagues)
   c. Get to know them, their ability to handle stress / leadership

4. Administrative support
   a. Will “leave you alone” i.e. trusts you to do your job well and safely

5. Time management to make it all happen
   a. You have other obligations, i.e. your job as a teacher!
